
QUANTUM SUPER CYCLE/BIG ROLLOVER SECOND EDITION

Great News! The Super Cycle CD's are now available for immediate delivery. Every major prediction that was forecasted in the first editions has come to pass

Now the focus is on wealth protection first and growth second. The second edition contains all the updates and current projections that relate to the convergence of the 17 Big Rollover negative trends. Seven hours are devoted specifically to portfolio and life style changes that must be adapted now.

The biggest social, political and financial train wreck in history are very strong words. But after 5 years of confirming research and 2 years of tracking trends since 2005 there is no doubt that the Big Rollover is real and cannot be stopped from manifesting into a 15-year cycle of correction and unwinding. Tackling adversity and negative events requires a positive mindset, information and a plan. This 10-hour seminar will provide all of those things and more. We make no attempt to sugar coat the weight of the evidence as it pertains to the Big Rollover. You will be shown a how to cocoon yourself and family from the worst elements of the Big Rollover. We also will present well-researched strategies to help you actually prosper from the three pathways of wealth creation, real estate, the financial markets and entrepreneurial enterprise. **This is the only investing seminar of its kind offered anywhere in the world!**

~Nick Russo

The comprehensive analysis and wisdom contained in this presentation can not be found anywhere in the world. All the material contained within is highly proprietary, time sensitive and copywrited.

All sales will be final. You are about to own the ultimate resource to safeguard your family, sidestep adversity and prosper through one of the most destructive cycles in history. You will gain insights that few others will have. We encourage you to share this priceless information with your entire family.

QUANTUM SUPER CYCLE/ BIG ROLLOVER SNIPPETS

There are far too many of these to list, and they are increasing daily and at a rapid rate!

For the third consecutive year, Mr. Nicholas Russo and Dr. Janice Dorn have given you insights that no others have into the 17 emerging negative macro trends that are converging to take us into the greatest social, geopolitical, financial and personal train wreck in history—The Big Rollover. This year Dr. Dorn presented two hours of totally new material dealing with the upcoming generational conflict, non-linear thinking, and specific ways to survive and prosper in the coming crisis. Mr. Russo detailed and expanded on the previous 16 macros factors and added another one—bringing the total to 17. The impact on the audience was “totally profound.”

All traders and investors are advised to track these factors as we present them to you. Every one of these trends will impact your life in a significant way as we move into The Big Rollover. There will be nowhere to hide unless you are prepared to survive. Here are just a few examples of the way these trends are playing out right in front of us right now:

Our medical system is broken, likely beyond repair. Universal health care will not solve this problem, and likely make it worse. Doctors are no longer healers, rather they are “providers” are not allowed to act on behalf of the patient, rather they must report to the bureaucracy that now controls medical care. This is devastating for every person in this country that becomes ill and does not have help from a physician or nurse friend who is willing to advocate for the patient against the system. Dr. Dorn has real-life examples from a number of individuals to whom she and Dr. McNaughton have donated their time and 80-plus years of medical knowledge to ensure that those people that come to her do not end up dead or mutilated by the blundering medical system.

Turkey invades Iraq with no resistance from the U.S.

There were five campus shootings in February and several campus killings in March so far.

Russia supports Serbia in opposing Kosovo’s independence.

Existing home inventories rise to 10.3 month supply, while home values decline 4.6%. The unwinding of the housing bubble is still in the early stages. Beware offers like the one I received in the mail last week from a company called “Real Estate Vulture Fund.” Trying to pick a bottom or a top in any market is a recipe for disaster.

Musharraf lost recent elections but has not stepped down.

Financial institutions are being forced to add reserves, making them less inclined to lend.

Earthquakes! (Nevada, England, Indonesia and Japan)

The CDC reports the flu is widespread across America with at least 50 new strains not protected by current vaccines. Diseases caused by animals (zoonoses) are increasing rapidly. Anyone who flies on an airplane today is exposing themselves to respiratory contamination at the very least. One of the best touted remedies to protect against this has just been shown to be fraudulent and now faces many million dollars in law suits.

There are reports from Forbes Magazine and other places that sunspot activity is primarily responsible for temperature changes on planet earth.

A report from the Associated Press states that—for the first time in history—1 in every 100 Americans is in jail or prison. This is up from 1 in every 145 reported in 2002.

FDIC is adding staff and bringing back retirees to prepare for potential bank failures. Several banks across the country have already failed and we expect more bank failures and financial institutions to fail. Several hedge funds failed in the past month and this trend is just beginning.

The Israeli/Palestinian problem will not be solved in our lifetime.

Israel will soon be forced to react to the growing nuclear threat from Iran.

Forbes magazine and other sources report that 1 in 200 patients that spend the night in a hospital will die from medical errors. Deaths from hospital infections now exceed 100,000 a year.

Wal-Mart stated that most shoppers are using Christmas gift cards to buy food.

More tornadoes were reported in February 2008 than any other time in history.

Saudi Arabia announced declining wheat production due to declining availability of fossil water. Water wars are coming.

Lulac, a Latino special interest group, is pushing for California to become an amnesty state. San Francisco and other cities are becoming "Sanctuary Cities."

There is a growing movement in the Latino community to "take back land that was taken from us."

Western Union reports that the flow of money sent home to Mexico and Central American by Latinos has come to a screeching halt as more and more are displaced from the job market.

Stop. Think. Do not go through this world and the rest of your life with blinders on. The government is NOT going to rescue you from the carnage that is coming. Look to the government and its attendant bureaucracy as the cause and facilitator of this serial bubble blowing that is now popping all around you. Take personal responsibility and save yourself. Look within yourself and look to the guidance offered by the research of the Quantum Supercycle/Big Rollover.

What are you waiting for?

This is the best ten hours you will ever spend because your future and the future of your loved ones depends on it!
