

SUPER CYCLE/SUPER BULL QUANTUM WEALTH

“The Pathway to Protecting Against the Biggest Financial, Social and Political Train Wreck in History”

It is staring you right in the face. Do you see it? Can you feel it? It is moving at crescendo speed, breaking down global boundaries and penetrating into every part of the world. It is the “Mother Lode,” perhaps the most dynamic and relentless biopsychosocial, economic, transcultural phenomenon in history. Now some forty years in the making, this powerful Grand Super Cycle has entered its parabolic wave, which will take it to culmination in a few years. Will you ride that wave, or just watch from the sidelines as the momentum grows to heights not presently imaginable?

The foundation for this global juggernaut has been laid by generations past and taken to its present level in the form of education, instantaneous communication of information, technological innovation, personal empowerment and entrepreneurial enterprise, all wrapped around the greatest economic and transformational force in history - The Baby Boomers.

You and every person on earth today are touched in some way by this inexorable dynamic. It is a global tornado of wealth creation, wealth accumulation and a Grand Super Cycle of opulence, far greater than the era of Gatsby. (Why is it greater? Because it is about much more than financial wealth. It is about attaining a higher quality of life, which embraces quantum health and wellness, life extension, spirituality, the search for personal meaning and mutually reinforcing social interaction, including philanthropy. The stage for this Super Cycle tsunami has been set for you by the gurus of finance, economics, fitness and self-help. The stage is set and the backdrop is ready for you to step into the spotlight and take action.

Yet, most of you will not do that. You will stand powerless, watching from afar like a child with its nose pressed up against the window of a candy store. You want to be part of it, but you have no idea where to start and so you do nothing. And the wave continues and washes over you until you feel like a drowning person struggling for air and don't know what hit you. Most men live lives of quiet desperation. You have heard this saying, no doubt. But there is more to it than this. Most men live lives of quiet desperation and die with their song still inside of them. Yes, the stage is set and everything is ready, but you are unable or unwilling to get up on that stage and sing your song...make yourself strong and do not be afraid to take what is there for you. Most people will not have the courage to do this. They stand by, feeling powerless and content to watch from afar. Almost in a state of paralysis where it all seems too overwhelming and maybe you don't deserve it anyway, so why bother? Yes, you want it all, but just don't have the energy or the desire to go after it. So you stay “stuck” in a state of paralytic insanity where you do the same thing over and over again, expecting different results. One thing is absolutely clear: if you keep doing what you are doing, you are going to keep getting what you are getting. Now is the time for you to take control, to make yourself strong, to sing your song and to get your piece of the Grand Super Cycle!

Why Quantum Power and why now? Just as every boom is followed by bust, (as it is in the natural ebb and flow of life and changing cycles), this Grand Super Cycle will end. It will be followed by a vicious cycle of devastation, pain, financial ruin and despair for those who are not prepared. This is coming. If you do not take action now, if you do not get up on that stage and do something about your life, you will be completely buried by the next cycle. Now is the time, and you have to take action to protect yourself and your loved ones. I believe that it is possible for you to double or triple your net worth over the next few years by maximizing the three power pathways of wealth accumulation: Real Estate, the Financial Markets and Entrepreneurial Enterprise. I will show you how, by becoming “invisible,” you will be able to attain a level of personal fulfillment beyond anything you have imagined.

THINK, BELIEVE, CREATE

Quantum Power is the final chapter in my Quantum Teaching series. It is the culmination of the wisdom I have gathered over the many years I have been speaking with you and to you and to many others throughout the world. Through Quantum Power you will learn how to make yourself strong in every way and how to prepare yourself for what is coming when this Grand Super Cycle ends. I will teach you how to: trade stocks and options for maximally efficient and consistent cash flow; build a multimillion dollar Real Estate portfolio one deal at a time; maximize, supercharge and protect your assets using the “Barbell Portfolio”; harness the power of Entrepreneurial Enterprise through LLC corporate structure, licensing and the Getty Strategy; embrace the principles of quantum Living, to live a full and enriched life that will allow you to successfully sidestep the next cycle, the Big Rollover.

THE BIG ROLLOVER

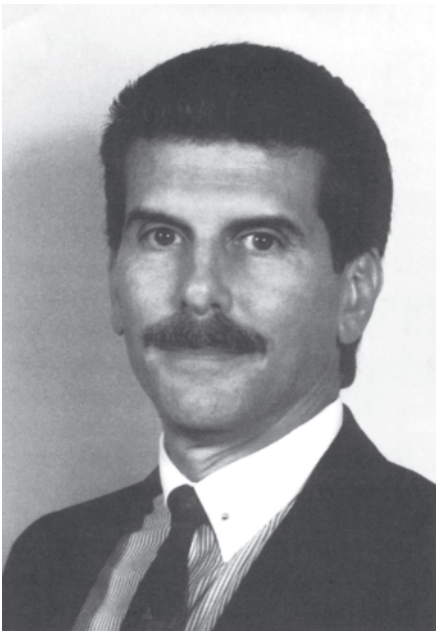

It is a known fact that fear is a big seller. Fear is a highly emotional response to perceived danger. The movie industry has capitalized on this human emotion by being a purveyor of fear in the form of monsters and a wide range of disaster flicks and Armageddon type scenarios. But our subconscious mind has always told us that it was just a movie and that when it was over we could go home to a safe environment. But what if? What if there was a developing reality that contained all our worst fears coming together at one time and aimed directly at you?

My name is Nick Russo. Institutional and individual clients know me as one of Wall Street’s most positively focused strategists. I am considered an expert on trends and have a superior record of forecasting important change well in advance of traditional forms of analysis. But now I have a new and important message. The conclusion of my proprietary analysis is that the very positive Grand Super Cycle of growth is in its final phase of development and will end in the not so distant future. It has entered the crown of the curve and will usher in a new long-term cycle of pain and devastation. I have titled the pending down cycle, “The Big Rollover.” It is destined to be the greatest financial, social and political train wreck in modern history. And it cannot be stopped. Although it is virtually impossible to pinpoint the exact date, I am able to bracket a time-frame. All big and important change develops by way of transition. The table is already being set. On an intuitive level you probably already sense that many things are just not right. So you must prepare now. Time cannot be wasted to put in place the proper game plan to protect you, your family and your business for what lies ahead. The good news is that there is one last chance to get it right, to take charge, to re-construct your life by rising to the challenge and making some very tough decisions now, not later.

I want you to understand that this is not a question, whether the Big Rollover will happen, but rather when it will happen. You deserve the best information, the very best plan of action possible. So for this the final segment in my Quantum series I have teamed up with a very powerful ally. Dr. Janice Dorn MD, PhD has just the credentials that will compliment this program in all the ways you would expect. Her insightful and pragmatic approach to Quantum Living and Wealth Creation will be a grounding enhancement for the plan that you must initiate now, not later.

It is time to face up to what you already know and feel, that the world is operating in a very delicate balance and can tilt in either direction at any time with devastating consequences. Join Dr. Dorn and myself to create your very own master plan of wealth enhancement and personal and professional survival. Please join us and bring a loved one. It is not too late!

***ALL GREAT CYCLES EVENTUALLY END.
WILL YOU BE PREPARED?***

PERSONAL MESSAGE

Life gives us a few chances to get it right. Each of us has the ability to choose to be winners and survivors. Yet history tells us that most people are not winners because they make the wrong choices over and over again. I want you to imagine that you are a person alive in the year 1927. The industrial revolution is in full swing and the stock market is creating new wealth daily for many people. And the good news is about to get even better, actually much better, before the momentum finally rolls over and ushers in a new down cycle called "The Great Depression" - one of our country's darkest economic periods. During that period companies were wiped out, unemployment rose to over 24% and the value of most assets were worth only pennies on the dollar. But during those dark times great wealth was also created and many focused families were survivors, successfully side-stepping much of the devastation

Now imagine that you are back in the present and positioned in front of the next big rollover. You have a very big decision to make! Will you be a victim of the largest economic, social and political train wreck in history based on my high probability analysis or will you be one of the survivors who will navigate successfully this incredible event?

I believe that we all have one last chance to re-enforce our financial and personal foundations before "The Big Rollover" by following the roadmap described in this seminar. I am ready to lead the way. I will not let you down.

— Nick Russo

“The Largest Financial, Social and Political Train Wreck in History”

BUT FIRST THE REST OF THE BOOM CYCLE

This seminar has been designed to be the ultimate Wealth Creation/Wealth Protection event of our time. Years of preparation, research and trend analysis have gone into the composite thesis. So what should you expect? First you should expect and will receive knowledge on the final stage of the Grand Super Cycle and the following Big Rollover that, in composite, has not been available from any media source. During this two-day event a plan of action will be presented that will allow you to create maximum wealth enhancement to your current financial profile through the three major pathways of the financial markets, Real Estate and entrepreneurial enterprise. You will learn specific strategies and techniques in those three areas that go beyond the scope of the average financial planner, advisor or broker. Being ahead of the curve for changing trends creates great wealth. So cycles of fear actually become the ultimate zones of opportunity.

The Big Rollover will happen; it cannot be stopped. A down cycle of maximum pain and destruction is on the horizon. One of the best economists of our time is proclaiming that it will be “the Mother of All Depressions.” So the second part of our program is to explain all of the dynamics intrinsic to the Big Rollover, to include why it will happen. And then to give you a simple, but powerful plan to sidestep this pending Tsunami. Recent tragic events point to the importance and value of listening to alerts and then taking pro-active action. This seminar is geared towards helping to make your financial and personal profile as strong as possible so that you will be able to successfully navigate the biggest storm in history that is on the horizon.

You already know in your heart of hearts that you need to attend this seminar. Bring your husband, wife, child, friend or neighbor, but do not miss this event!
